Making Breakthrough Innovation Happen Porus Munshi

2015-04-21 India is known as a country not of innovation but of improvisation-or 'Jugaad', as they say in Hindi. But that has begun to change. We have enough examples in this country of people who have turned industry norms upside down to pull off the impossible in their fields. Eleven such case studies are featured in the book, including: Titan, which came out with the slimmest water-resistant watch in the world; Su-Kam, a power backup company that did not fit into an existing industry but ended up creating a new one; Shantha Biotech, which developed a low-cost Hepatitis-B vaccine and ushered in the biotechnology age in India; Trichy Police, which rewrote policing paradigms to nip extremism and crime in the bud, thus transforming the city. Through the breakthroughs achieved by these organizations, Porus Munshi shows that to do what is considered 'impossible' in your particular industry, you have to be subversive and think differently. In the process, if the existing business model needs to be turned on its head, then so be it!

A Flowering Tree and Other Oral Tales from India A. K. Ramanujan 1997-01-01 This book of oral tales from the south Indian region of Kannada represents the culmination of a lifetime of research by A. K.

Ramanujan, one of the most revered scholars and writers of his time. The result of over three decades' labor, this long-awaited collection makes available for the first time a wealth of folktales from a region that has not yet been adequately represented in world literature. Ramanujan's skill as a translator, his graceful writing style, and his profound love and understanding of the subject enrich the tales that he collected, translated, and interpreted. With a written literature recorded from about 800 A.D., Kannada is rich in mythology, devotional and secular poetry, and more recently novels and plays. Ramanujan, born in Mysore in 1929, had an intimate knowledge of the language. In the 1950s, when working as a college lecturer, he began collecting these tales from everyone he could--servants, aunts, schoolteachers, children, carpenters, tailors. In 1970 he began translating and interpreting the tales, a project that absorbed him for the next three decades. When Ramanujan died in 1993, the translations were complete and he had written notes for about half of the tales. With its unsentimental sympathies, its laughter, and its delightfully vivid sense of detail, the collection stands as a significant and moving monument to Ramanujan's memory as a scholar and writer.

The World's Great Dailies John Calhoun Merrill 1980 This completely revised and extended updating of John Merrill's *The Elite Press*, published over a decade ago, provides a provocative and thoroughly researched look into the characteristics of "great" or "quality" journalism in an international context. The introductory chapters define newspaper "greatness" by describing those journals that are serious, intellectually oriented, cosmopolitan, courageous, impartial, interpretive, reliable, responsible and socially-

concerned. Here the authors place newspapers in their political environments, depicting the differences between authoritative and liberatarian press systems.

From the Other End of the World Dean R. K. (Rachael Kathleen) 2010 From the Other End of the World brings together experiences of immigrants to New Zealand from the UK who left the austerity of war conditions for a new life - or for what was intended to be a two year 'OE'. All but one sailed between 1946 and 1956; the

other sailed in 1965. The experiences range from romantic and humorous to the disappointing and deeply moving. Together they capture the activities, attitudes and expectations of the time as well as many interesting individual experiences - urban and rural. They are a testament to people who, by bringing much needed skills and experience, made a valuable but nowadays often forgotten contribution to New Zealand.

Bhava U R Ananthamurthy 2000-10-14 A compelling tale of mystery, passion and spiritual exploration seventy-year-old Shastri; A reciter of Harikatha, encounters an Ayyappa pilgrim on a train. Around the pilgrim's neck is a Sri chakra amulet which looks like one that belonged to Saroja, Shastri's first wife. But Shastri thought he had killed Saroja years before, believing she was pregnant by another man. If the amulet is Saroja's, then she might have survived, and the pilgrim (Dinakar, a television star) could be Shastri's son. A similar story is revealed when Dinakar visits his old friend Narayan: either could be the father of Prasad, A young man destined for spiritual attainment. The interwoven lives of three generations play out variations on the same themes. Whose son am I? Whose father am I? Where are my roots? These mysteries of the past and present are explored, but there are no clear answers. And while significant in daily being , such questions lose urgency in the flux of becoming (Bhava means both being and becoming). So we are led to consider that Samsara-the world of illusion and embodiment-may not be very different from Sunya , the emptiness from which everything arises. At times a drama of cruelty and lust, at times a lyrical meditation on love and transformation, Bhava is an exceptional novel by one of India's most celebrated writers. Translated from the Kannada by Judith Kroll with the author.

Transition to Eminence G. M. Hiranandani 2005 This volume of the navy's history covers the period from 1976 to 1990. It examines the navy's success in keeping abreast of advances in technology in step with progressive self-reliance. In a decade and a half of innovation, the navy equipped its indigenously built frigates, corvettes, and other vessels with combinations of the latest available weapons and equipment from the Soviet Union, from Europe, and from indigenous sources. A tiny "ship design cell," which in 1965 was designing yard craft, was by 1990 designing an aircraft carrier, submarines, and missile destroyers. The new acquisitions from the Soviet Union ranged from missile destroyers, conventional submarines, and long-range reconnaissance aircraft, to minesweepers. All these high-tech inductions needed to be operated and manned by better-educated and better-trained personnel. New maintenance, repair, and refit facilities had to be created. The increase in the volume of spares and the diversity of sources compelled modernization of the logistics system. This volume analyzes how these problems were tackled.

The Sun Never Sets Vivek Bald 2013-07-22 The Sun Never Sets collects the work of a generation of scholars who are enacting a shift in the orientation of the field of South Asian American studies. By focusing upon the lives, work, and activism of specific, often unacknowledged, migrant populations, the contributors present a more comprehensive vision of the South Asian presence in the United States. Tracking the changes in global power that have influenced the paths and

experiences of migrants, from expatriate Indian maritime workers at the turn of the century, to Indian nurses during the Cold War, to post-9/11 detainees and deportees caught in the crossfire of the "War on Terror," these essays reveal how the South Asian diaspora has been shaped by the contours of U.S. imperialism. Driven by a shared sense of responsibility among the contributing scholars to alter the profile of South Asian migrants in the American public imagination, they address the key issues that impact these migrants in the U.S., on the subcontinent, and in circuits of the transnational economy. Taken together, these essays provide tools with which to understand the contemporary political and economic conjuncture and the place of South Asian migrants within it.

Karimayi Chandrasekhara Kambar 2017 The story of the archetypal Mother, the mother of all Chandrashekhar Kambar s stories, variously called Mayi, Idimayi, and now Karimayi, is at the heart of this novel. The narrative of Karimayi moves through an astounding time span, beginning from the mythopoeic times of Goddess Karimayi s birth to the historical and cultural shifts in the life of a small rural community called Shivapura during the British colonial era. Written in the Kannada language in 1975, Karimayi breaks the familiar narrative of an idyllic and traditional village community getting destroyed by the incursion of modernity. Instead, the multiple and layered narrative of Karimayi weaves everything into itself the story of the village s past, the myth of Karimayi, the disorder that sets in with the invasion of colonial modernity and the lure of the city, but, most importantly, also of the disruption of another form of native modernity that the village community has already begun to incorporate into its rhythms of life.
